

# General Engineering

For all your engineering needs

## About Us

We supply forgings to a diverse range of general engineers. With all in house facilities for heat treatment, machining and testing we can offer unique one off items to mass production from 1kg to 80 tonnes.

## Challenge Us Today

Offer innovate solutions for engineering from the common rotating land bearing parts to large scale parts. General engineering includes aerospace, gear industry, power generation, mining, rail, food processing and paper making machinery. It starts with a drawing and our team will manage the rest with attention on quality with a focus on customers satisfaction.

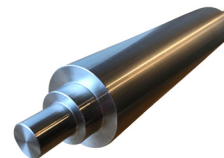

## Why Choose Us

World leader in forging and engineering with a global reputation for quality.

- Metallurgical Support
- AS/EN 9100 Series
- ISO 14001:2015
- Lloyds, ABS, DNV

## Products

Include but not limited to:

Hydraulic Cylinders	Spindles	Hubs	Fuel Sumps
Compressor Shafts	Mandrel Shafts	Connecting Rods	Transition Cones
Fan Shafts	Drive Shafts	Roller Rails	Swimming Rolls
Mounting Bells	Rolling Mill Wheels	Landing Gear	Sugar Mill Rolls
Pump Shafts	Extrusion Containers	Crusher Shafts	Injector Plates
