

Marine Industry

Commercial & Naval

About Us

We are experts in the supply of forged and engineered products for commercial & naval vessels. In 1912 we became one of the first companies to gain British Admiralty Approval for the supply of finish machined propulsion shafts.

Why Choose Us

World leader in forging and engineering with a global reputation for quality.

- Admiralty since 1912
- Metallurgical Support
- AS/EN 9100 Series
- ISO 14001:2015
- Lloyds, ABS, DNV

Refurbished Shaft

We have developed many approved procedures for the refurbishment of ship shafting. This can include metal spraying, welding and fitting of new liners, grp and re-sleeve shafts can be returned to as new condition at a fraction of the cost and time of a new shaft.

Products

Include but not limited to:

Propeller Shafts	Anchor Shanks	Thrust Shafts	Manifold Blocks
